### MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

### Industry Structure and Development:-

The NDA government in the centre has infused abundant optimism and hope of excellent performance in the minds of people and industry. The CPI inflation too on the other hand which was acting stubborn to ease to single digit from double digit since last few years has now been eased to 6%. The major contributor to bring the inflation down was falling crude prices across the globe. There are lot of stimulis announced the by government in the union budget to give a booster dose to give pace to investments in various sectors which has given genesis of strong GDP growth for the year fiscal year 2014- 2015 aided by supporting external environment. The government has made substantial progress in several policy areas and long-term prospects for growth appears bright. The current situation offers an opportunity to further strengthen the business-friendly environment to domestic and foreign corporate and, in turn, enhance the quality of public spending. RBI too having its cynosure on high growth was also looking at inflation throughout the year and was in big dilemma to bring balance between pacing the growth and curbing the inflation. The Reserve Bank of India, in its persistent efforts to boost the pace of growth, reduced repo rate twice during the year. RBI has also indicated that it will continue to be accommodative in further easing of the rates if the inflation remains within the acceptable range and provided it is passed on by commensurate reduction in lending rates.

### Outlook, Risk and Concern:-

The retail ecommerce market hasn't changed, meaning that we are still seeing very strong demand as well as growing competition. In fact, ecommerce still constitutes a small fraction of overall retail sales, so there remains tremendous growth potential. Also, since the market is evolving very rapidly with data formats continuing to vary widely, data collection and evaluation are particularly difficult. Consequently, one has to rely largely on surveys by both government and private agencies. The U.S. Census Bureau says that the manufacturing sector is relatively more reliant on e-commerce (57.1% of their total shipments), followed by merchant wholesalers (26.5% of their total sales). These two segments make up the business-to-business (B2B) category.

### **Opportunity and Threats:**

### Opportunity:-

Long-term economic outlook positive, will lead to opportunity for capital market services Growing Financial Services industry's share of wallet for disposable income Regulatory reforms would aid greater participation by all class of investors Leveraging technology to enable best practices and processes Corporate looking at consolidation / acquisitions / restructuring opens out opportunities for the corporate advisory business

### Threats:-

Execution risk Short term economic slowdown impacting investor sentiments and business activities Slowdown in global liquidity flows Increased intensity of competition from local and global players Market trends making other assets relatively attractive as investment avenues

### **Operational and Financial Performance:-**

The summarized performance of Pesticides and Brewers Limited was as under:

	2014-15 (Rs in Lacs)	2013-14 (Rs in Lacs)
